About YTEC RFID inlays, labels and tags OEM/ODM Service

YoungTek is a professional RFID inlay manufacturer based in Yangzhou and Taiwan since 2016. By leveraging YoungTek Group's R&D capabilities and over 30 years of manufacturing experience, we offer the most competitive inlays in terms of quality and cost, along with expedited delivery times. We have shipped over 10 billion RFID inlays to customers worldwide. With our self-development RFID dry inlay bonder, we offer flexible and customizable services to ensure our customers' utmost satisfaction.

Production Capacity: 2 Billion Annually

Jiangsu

Capacity: 1.5B pcs/year

Yangzhou Plant

- RFID inlays, labels and tags OEM/ODM

Taiwan

Capacity: 0.5B pcs/year

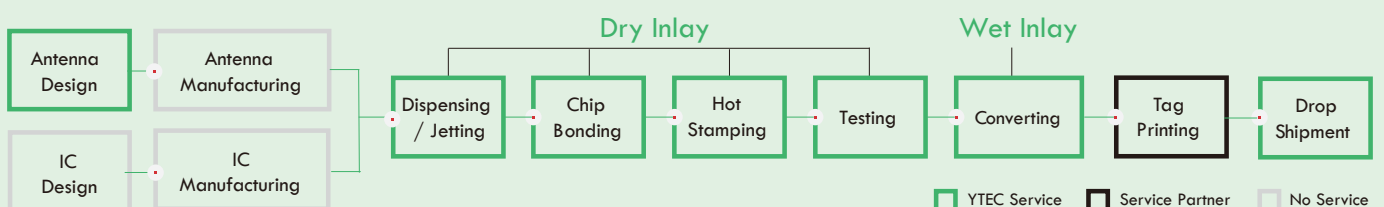

Li-Xing Plant/ Hsinchu Science Park

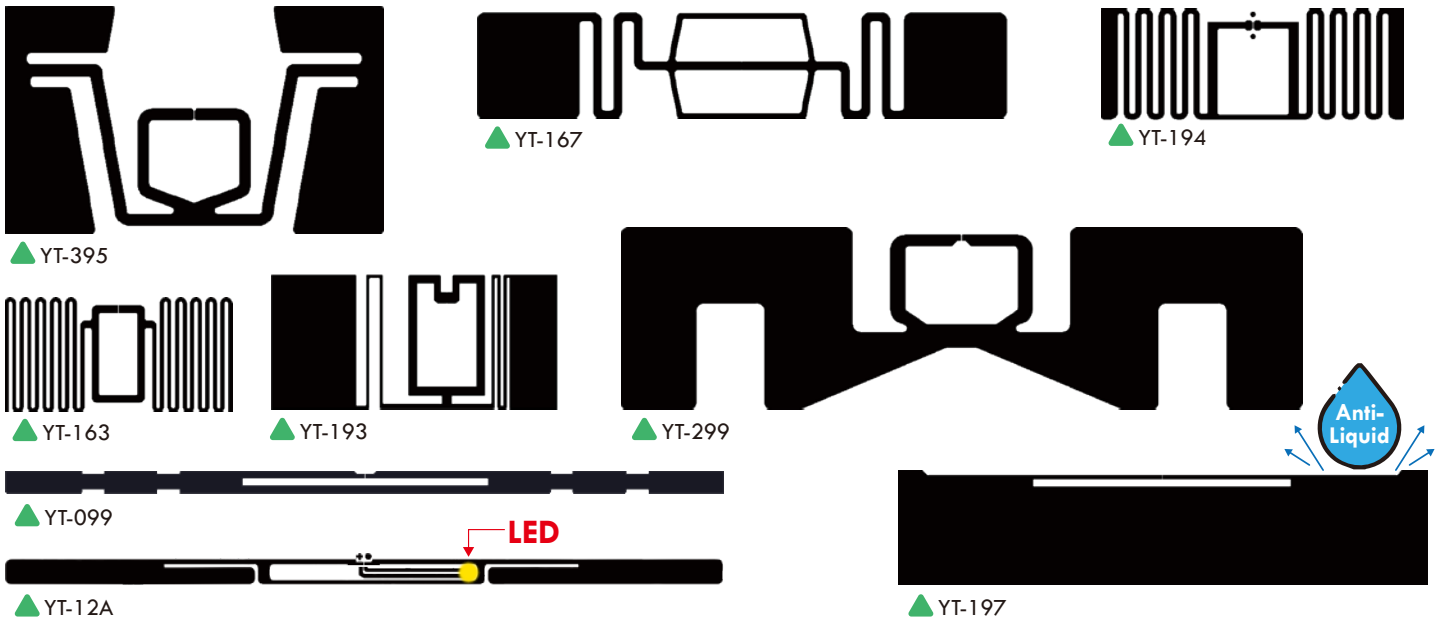

- RFID inlays, labels and tags OEM/ODM
- Automatic equipment design, manufacture and sales (RFID Dry Inlay Bonder)

OEM/ODM Process Flow

YoungTek offers etching, electroplating, and paper-based inkjet-printed antennas to provide a variety of RFID-related services. These services include dispensing, chip bonding, hot-stamping, testing, and converting, which are utilized in advanced and emerging industries. This enables YoungTek to offer extensive OEM/ODM capabilities in the IoT industry.

RFID Inlay Catalogue

Product	Chip	X(mm)	Y(mm)	Read Distance (m)	Sensitivity (dBm)	Applications
